GIVA AGRO · DEHRADUN, INDIA

Private Label Packaging Range

Real product photography — supplied plain or filled and labelled under your own brand

Droppers · pumps & sprayers · jars & tins · PET & HDPE bottles | 5 ml to 250 ml

Pouches, tubes and tea packaging also sourced and quoted to your brief

Essential Oils · Himalayan Shilajit · Herbal Teas · Personal Care

OEM & white label manufacturing, filling, labelling and packing under one roof.

sales@givaagro.com · +91 73027 12304 · www.givaagro.com

Edition 2026

How private label works

You bring the brand. We bring the oil, the shilajit, the tea and the pack — filled, labelled, sealed and boxed, ready to sell. Every format in this brochure can be supplied empty, or filled with any product from the Giva Agro range under your own label.

01 **Tell us the product & volume**
Which oil, blend or extract, the fill size, and roughly how many units for the first run.

02 **Choose the pack**
Pick a format from this brochure, or send a reference photo and we will match it.

03 **Approve a sample**
We build a filled sample with your artwork applied so you can check fit, finish and leak-safety.

04 **Production & dispatch**
Filling, labelling, shrink-banding, cartoning and export documentation, in-house at Dehradun.

What is included

Supplied with every pack

- Bottle, closure and any inner plug or dip tube
- Induction or wad seal where the pack needs one
- Tamper-evident shrink band on request
- Fill-level and leak check on every batch

Available as add-ons

- Label design and print (paper, PP, clear, foil)
- Mono cartons and printed outer shippers
- Batch, MRP and expiry coding
- COA, MSDS and export paperwork

Indicative lead times

SCOPE	TYPICAL	NOTES
Stock packs, no customisation	3 – 7 days	Bottle and closure from held stock, shipped as-is.
Label print applied to stock packs	7 – 10 days	After artwork sign-off and a print proof.
Filled, labelled and cartoned order	2 – 3 weeks	From approval of the filled sample.
Custom colour, frosting or coating	3 – 4 weeks	Minimums apply; run to your Pantone reference.
Fully custom mould or shape	8 – 12 weeks	Tooling cost quoted separately.

Indicative only. Actual lead time depends on the pack, the season and the quantity, and is confirmed in writing on your order.

Glass dropper bottles

03

Our most-asked-for format. Body colour, collar finish and pipette type can be mixed and matched across the whole dropper family.

Opal White Glass Dropper

Opal white glass · 15 – 50 ml

Glossy opal-white glass with a rose-gold collar. Reads premium in serum and face-oil ranges; the solid white body gives labels a clean, high-contrast base.

- 15 / 30 / 50 ml
- White or black teat
- Gold, rose-gold, silver or black collar
- Fully opaque — strong UV protection

Amber Glass Dropper

Amber glass · 10 – 50 ml

Amber glass filters UV light, which makes it the safest default for citrus, cold-pressed and light-sensitive essential oils. The classic apothecary look.

- 10 / 15 / 20 / 30 / 50 ml
- Graduated or plain pipette
- Gold, silver or black collar
- Child-resistant collar available

Matte Black Glass Dropper

Matte black · 15 – 30 ml

Deep matte black with a mirror-gold collar — the strongest contrast option for gold or white foil labelling. Popular for beard oils and men's ranges.

- 15 / 30 ml
- Soft-touch coating option
- Gold or silver collar
- Coated over clear or amber glass

Glass dropper bottles

Frosted and coloured finishes are a coating applied to clear glass, not a dye — so the clear version of any colour shown here is also available.

Frosted Green Glass Dropper

Frosted green · 30 ml

Sand-frosted green glass with a soft matte hand-feel and a gold collar. Suits herbal and botanical positioning where colour does the talking.

- 30 ml (15 / 50 ml on request)
- Also in frosted blue and amber
- Gold collar with black teat
- Colour is a coating, not a dye

Frosted Square Glass Dropper

Frosted, flat · 20 – 50 ml

Flat rectangular glass with a frosted finish — the widest label panel in the range, which makes it the easiest pack to carry a lot of copy or a full-wrap design.

- 20 / 30 / 50 ml
- Also in gloss clear and matte black
- Gold collar, white teat
- Sits flat in a carton, saves freight volume

Frosted Dome Dropper Bottle

Frosted glass · 15 – 30 ml

A rounded, dome-shaped bottle in sand-frosted glass with a silver dropper collar — a distinctive silhouette next to the straight-sided droppers in the range.

- 15 / 30 ml
- Frosted or gloss finish
- Silver or gold collar
- A shape cue that stands out on shelf

Pumps & airless

White Airless Pump Bottle

PP · 15 – 100 ml

Full airless PP bottle with an internal piston — no air enters the pack, so preservative load can be kept low. The slim column suits travel and sampling kits.

- 15 / 30 / 50 / 100 ml
- Gloss, matte or frosted body
- Airless piston pump, silver collar
- Lightest option for air freight

Matte Black Glass + Gold Pump

Coated glass · 15 – 50 ml

Thick-walled matte black glass with a gold-shouldered pump and clear overcap. Meters an even dose and handles thicker serums cleanly.

- 15 / 30 / 50 ml
- Clear or coloured overcap
- Gold-anodised or matte pump
- Popular for beard and hair oil ranges

Matte Black Glass Pump Bottle

Coated glass · 15 – 30 ml

Soft-touch matte black glass paired with a matching black pump — a stealth finish that reads modern on hair serums, beard oils and men's grooming lines.

- 15 / 30 ml
- Also available in glass or PP
- Black pump or spray option
- Matte coating hides fingerprints

Pumps & airless

Serum Pump — Colour Options

Glass & PP · 30 ml

The same serum-pump format in two finishes side by side — gloss white PP and black-and-gold glass — so a colourway decision is easy to make at a glance.

- 30 ml (15 / 50 ml on request)
- Clear overcap included
- White, black, gold or silver
- Mix finishes across one product line

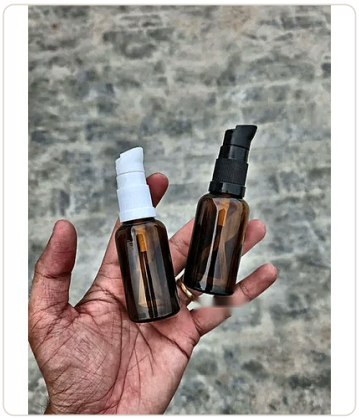

Airless Pump — Frosted Glass Duo

Frosted glass · 30 ml

Frosted glass airless pumps in matte-black and white trims. Frosting hides fingerprints and gives a soft-touch shelf presence next to a gloss range.

- 30 ml (15 / 50 ml on request)
- Frosted clear, or tinted on request
- Black or white pump head
- Pairs with the matching dropper family

Amber Pump Bottle — Cap Options

Amber glass · 30 ml

Amber glass treatment-pump bottle shown with white and black pump heads. UV-protective amber glass on the same body used for the dropper range, for a matched pump-and-dropper line.

- 30 ml (15 / 50 ml on request)
- Amber glass — UV protective
- White or black pump
- Matches the amber dropper for range consistency

Which dispenser?

Pipette dropper

THIN OILS, SERUMS

Visible dose, user counts drops. Not suited to thick creams.

Serum / lotion pump

BODY & MASSAGE OILS

High output per stroke. Uses a dip tube, so a little is left behind.

Airless pump

ACTIVES, LIGHT CREAMS

No air ingress, near-full evacuation. Most protective.

Beak fliptop

SHAMPOO, HDPE PACKS

Cheapest to run, one-hand use, good for shower and travel.

Pumps & airless

The same gold-collared pump across three glass finishes, plus a larger body for wash-off lotion and conditioner formats.

Frosted Glass Pump Bottle — Gold Collar

Frosted glass · 30 ml

Frosted glass body with a gold-collared treatment pump — the soft-touch finish and warm metal read well together for premium serum and body-oil positioning.

- 30 ml (15 / 50 ml on request)
- Frosted, clear or coloured glass
- Gold or silver collar
- Pump metered for light-to-medium viscosity

Smoked Bronze Pump Bottle — Gold Collar

Coated glass · 30 ml

A warm bronze-smoked glass finish under the same gold-collared pump — an easy way to differentiate a hero SKU within one product line without changing the mould.

- 30 ml (15 / 50 ml on request)
- Also in matte black and frosted white
- Gold collar
- Coated finish over clear glass

Frosted Bottle (Large) — Pump Options

Frosted glass/PET · 100 ml

A larger frosted bottle for body lotion and wash-off formats, shown with gold-collared black and white pumps. Steps the range up from serum size to a full body-care size.

- 100 ml (150 / 200 ml on request)
- Frosted or gloss finish
- Gold-collared black or white pump
- Sized for lotion, wash and conditioner

Plastic bottles

HDPE Bottle + Gold Fliptop

HDPE · 50 – 250 ml

White HDPE bottle with a gold beak-fliptop closure. Squeeze control and one-hand opening — the everyday format for shampoo, body oil and shower ranges.

- 50 / 100 / 250 ml
- White, black or natural body
- Gold, silver or plain fliptop
- Induction seal option

Large PET Bottle — Cap Options

PET · 200 – 250 ml

A tall cylindrical PET bottle in a deep amber-brown tint, shown with three flip-cap options. The bigger-volume workhorse for shampoo, conditioner and body wash ranges.

- 200 / 250 ml
- Tinted PET blocks light like glass
- Clear, flat-black or domed-black flip cap
- Lightweight — lower freight cost than glass

Clear PET Travel Bottle — Pump Options

PET · 100 ml

Wide-mouth clear PET bottle shown with black and white lotion pumps. A practical, low-cost format for hotel, travel-kit and sampling programmes.

- 100 ml (30 / 50 ml on request)
- Clear or frosted PET
- Black or white pump
- Screw-fit pump, tamper band available

Closures & components

Every bottle is built from separable parts — body, collar and closure can each be resourced and swapped independently, so one mould can carry several finishes without new tooling.

How it comes together

Bottle and closure supplied separately

Caps, pumps and droppers can be resourced independently of the bottle — swap a gold fliptop for silver, or pair one body with a different collar, with no re-tooling needed.

A fliptop closure, open

The beak fliptop opens and reseals one-handed and holds its position under normal shower and travel handling, also available as disc-top and standard fliptop.

Spray & mister bottles

A fine-mist sprayer in amber (UV-protective, for hero fragrance and hair mists) and clear (toners, setting sprays, linen mists).

Amber Spray Bottle — Cap Options

Amber glass · 15 – 30 ml

Small amber glass bottle with a fine-mist spray pump, shown in black and white. A compact size for facial mists, hair serums and travel sizes of a hero fragrance.

- 15 / 30 ml
- Amber blocks UV light
- Black or white fine-mist sprayer
- Clear overcap included

Clear Spray Bottle — Cap Options

PET/glass · 60 – 100 ml

Clear cylindrical bottle with a fine-mist sprayer, shown in black and white. A budget-friendly toner, setting-spray or linen-mist format.

- 60 / 100 ml
- Clear PET or glass
- Black or white fine-mist sprayer
- Tamper-evident overcap available

Where fine-mist works best

Hair & scalp serums

LIGHT, EVEN COVERAGE

A fine mist spreads a light oil across hair or scalp without oversaturating any one spot.

Toners & face mists

WON'T FLOOD THE SKIN

A controlled dose per pump, easy to apply over makeup without disturbing it.

Room & linen mists

EVEN, WIDE THROW

A wider spray pattern covers fabric or air evenly from a short distance.

Travel & sampling

COMPACT, LOW FILL

Small fill sizes in the same amber or clear body used for the full-size range.

Jars & tins

Amber jars in two sizes, shown with plastic and metal screw-lid options — the wide-mouth size suits balms and creams that need a spatula.

Amber Cosmetic Jar (Small)

Amber glass · 15 – 30 g

A small-format amber jar with a black screw lid and induction-seal liner — sized for balms, lip and eye creams where the fill is precious and the pack should stay compact.

- 15 / 30 g
- Induction seal liner included
- Black or amber lid
- UV-protective amber glass

Amber Wide-Mouth Jar

Amber glass · 50 – 100 g

A wider-mouth jar in the same amber glass, sized up for creams and balms that need finger or spatula access. Black lid with a foam-and-foil seal liner.

- 50 / 100 g
- Wide mouth for easy scooping
- Black lid, white seal liner
- Matches the small jar for range building

Amber Jar — Metal Screw Lid

Amber glass · 50 g

The same amber jar body finished with a ribbed metal screw lid instead of plastic — a heavier, more tactile close that suits a higher price point.

- 50 g (100 g on request)
- Amber glass, UV protective
- Silver-finish ribbed metal lid
- Induction seal liner included

Jars & tins

The same frosted-glass jar with a plastic lid in black or white, or stepped up to a brushed-aluminium screw lid for a heavier, premium close.

Frosted Jar — Lid Colour Options

Frosted glass · 30 – 50 g

Frosted glass jar with a plastic screw lid, shown in black and white. The soft-touch body and interchangeable lid colour make it easy to colour-code a range.

- 30 / 50 g
- Frosted or clear glass
- Black or white lid
- Induction seal available

Frosted Jar — Aluminium Screw Lid

Frosted glass · 60 g

Frosted glass jar with a brushed-aluminium screw lid. The metal close and soft-touch body together give the pack a noticeably heavier, premium hand-feel.

- 60 g (100 g on request)
- Frosted or clear glass
- Brushed aluminium lid
- A step-up close for hero SKUs

Seal & shelf-life options

Induction seal

TAMPER-EVIDENT

A foil liner heat-sealed to the rim — broken on first open, so tampering is visible.

Foam / EPE liner

EVERYDAY RESEAL

A soft foam disc under the lid that cushions and reseals without heat-sealing.

Silicone gasket

BETTER RESEAL

Sits in a metal lid for a tighter, more repeatable close on balms and creams.

Amber vs frosted

LIGHT PROTECTION

Amber blocks UV outright; frosted clear looks premium but offers less light protection.

Colours, finishes and decoration

The same bottle or jar can be taken in very different directions. Amber, opal white, matte black, frosted green, smoked bronze and frosted clear are all photographed elsewhere in this brochure; the rest of the palette below is available on request and quoted the same way.

1. Body colour & surface

Amber · Opal white · Matte black · Frosted green · Frosted clear · Cobalt · Frosted blue · Gloss clear

2. Collar, cap & closure

Gold · Rose gold · Silver · Matte black · White · Bamboo / wood

Closure types: pipette dropper (plain or graduated), airless piston pump, serum and lotion pump, fine-mist spray, beak fliptop, disc-top, screw cap with wad or induction seal, roll-on ball, child-resistant cap, cork, and bamboo or wood-faced caps.

3. Decoration & labelling

- **Paper & art-paper labels**
  Matt or gloss laminate, the everyday choice for oils and teas.
- **Metallised & foil labels**
  Gold or silver foil block, spot UV, embossing for gifting ranges.
- **Hot foil stamping**
  Single-colour metallic marks, best on matte and soft-touch bodies.
- **Clear PP / no-label look**
  Suits gloss clear and frosted glass where the liquid should show.
- **Screen printing**
  Printed straight onto glass — no label edge to peel in oily conditions.
- **Shrink sleeves & bands**
  Full-body graphics, or a neck band for tamper evidence.

Secondary packaging & lower-impact choices

Mono cartons, rigid gift boxes, kraft mailers, moulded pulp inserts, printed shippers, pallet-ready export packing. Glass and aluminium over plastic where the format allows, PCR PET, recyclable mono-material pouches, refill sizes.

What we recommend

A shortlist if you are starting from the product rather than the bottle. Every pack named below is photographed in this brochure.

Steam-distilled & spice essential oils

Amber glass dropper, with a graduated pipette or an orifice reducer plus a CR cap for export markets. Amber protects the oil from UV; the reducer controls the dose.

Amber Glass Dropper · 10 – 50 ml

Face serums & actives

Opal white or matte black glass dropper, or the airless pump where the formula is oxygen-sensitive. Airless keeps preservative load down.

Opal / Matte Black Dropper · Airless Pump · 15 – 50 ml

Shilajit resin, balms & creams

Amber or frosted glass jar with a metal or plastic screw lid — a wide mouth for easy scooping, and amber glass blocks light for actives that are sensitive to it.

Amber / Frosted Jar · 15 – 100 g

Shampoo, wash & shower oils

HDPE or tinted PET bottle with a beak fliptop or pump closure — squeeze control and one-hand opening, and no glass-breakage risk near a shower.

HDPE / PET Bottle + Fliptop or Pump · 50 – 250 ml

Beyond what's photographed

Herbal tea and the rest of the personal-care range also call for pouches, tubes and tins we haven't photographed here — but we source and quote them the same way. Send us the product and fill size and we'll come back with pack options and a filled sample.

At a glance — every format in this brochure

All 25 formats photographed in this brochure, grouped as they appear on the pages before this one.

FORMAT	MATERIAL & SIZE	CLOSURE / NOTE
GLASS DROPPERS		
Opal White Glass Dropper	**Opal white glass · 15 – 50 ml**	Gold, rose-gold, silver or black collar
Amber Glass Dropper	**Amber glass · 10 – 50 ml**	Gold, silver or black collar
Matte Black Glass Dropper	**Matte black · 15 – 30 ml**	Gold or silver collar
Frosted Green Glass Dropper	**Frosted green · 30 ml**	Gold collar with black teat
Frosted Square Glass Dropper	**Frosted, flat · 20 – 50 ml**	Gold collar, white teat
Frosted Dome Dropper Bottle	**Frosted glass · 15 – 30 ml**	Silver or gold collar
PUMPS & AIRLESS		
White Airless Pump Bottle	**PP · 15 – 100 ml**	Airless piston pump, silver collar
Matte Black Glass + Gold Pump	**Coated glass · 15 – 50 ml**	Gold-anodised or matte pump
Serum Pump — Colour Options	**Glass & PP · 30 ml**	White, black, gold or silver
Airless Pump — Frosted Glass Duo	**Frosted glass · 30 ml**	Black or white pump head
Matte Black Glass Pump Bottle	**Coated glass · 15 – 30 ml**	Black pump or spray option
Frosted Glass Pump Bottle — Gold Collar	**Frosted glass · 30 ml**	Gold or silver collar
Smoked Bronze Pump Bottle — Gold Collar	**Coated glass · 30 ml**	Gold collar

Frosted Bottle (Large) — Pump Options	**Frosted glass/PET · 100 ml**	Gold-collared black or white pump
PLASTIC BOTTLES		
HDPE Bottle + Gold Fliptop	**HDPE · 50 – 250 ml**	Gold, silver or plain fliptop
Large PET Bottle — Cap Options	**PET · 200 – 250 ml**	Clear, flat-black or domed-black flip
Clear PET Travel Bottle — Pump Options	**PET · 100 ml**	Black or white pump
SPRAY & MISTER BOTTLES		
Amber Spray Bottle — Cap Options	**Amber glass · 15 – 30 ml**	Black or white fine-mist sprayer
Clear Spray Bottle — Cap Options	**PET/glass · 60 – 100 ml**	Black or white fine-mist sprayer
JARS & TINS		
Amber Cosmetic Jar (Small)	**Amber glass · 15 – 30 g**	Black or amber lid
Amber Wide-Mouth Jar	**Amber glass · 50 – 100 g**	Black lid, white seal liner
Frosted Jar — Lid Colour Options	**Frosted glass · 30 – 50 g**	Black or white lid
Amber Jar — Metal Screw Lid	**Amber glass · 50 g**	Silver-finish ribbed metal lid
Frosted Jar — Aluminium Screw Lid	**Frosted glass · 60 g**	Brushed aluminium lid

NEXT STEP

Send us your shortlist

Tell us the pack, the fill size and the quantity you have in mind and we will come back with a quotation, a lead time and a filled sample for approval.

What to send us

- Product and fill size
- Bottle and closure preference
- Label artwork or brand brief
- First-run quantity
- Destination market

What you get back

- Itemised quotation
- Pack drawing or reference photo
- Filled sample with artwork
- Lead time and dispatch plan
- COA, MSDS and export papers
